Welcome

Not sure if we should be worried, but we (humans) are outnumbered on this planet by...ants. And not just by a little. For every 1 human there are 1.6 million ants on planet Earth (fact - the total weight of those ants is about the same as humans). But it isn't just the ants that got us beat. We are outloved. If we measured love, for every drop we have God has 1.6 million drops. Should we be worried? No. Not. Nope. It is that outloved love that will not give up on us. That's our theme this week. Welcome to Champion.

Our Mission

We serve and glorify God through
Christ-centered worship,
individual spiritual growth, youth
involvement,
and
community interaction.
