Welcome

If it had been a blue whale there would have been no problem swallowing anybody. The blue whale is the largest animal on the planet. And when they say largest, they really mean it: Just its tongue is the weight of an elephant and its heart weighs what an average car does. And the blue whales aren't just the largest animals, they are the loudest. Because of the low frequency, we can't hear them, but they communicate with each other through groans even up to 1,000 miles apart. Blue whale or not, something took Jonah for a gut-wrenching ride and gave us a whale of a story for our teaching this week. Welcome to Campion.

Our Mission

We serve and glorify God through Christ-centered worship, individual spiritual growth, youth involvement, and community interaction.
